

City of Seattle Preliminary Assessment Report

December 10, 2008

This report represents a preliminary determination of project requirements from various city departments based on project characteristics that you identified on the Site Plan and the Preliminary Application Form. The city's goal is to provide you with as much information and assistance as possible prior to your permit application submittal. Complete and accurate application materials help to reduce the need for correction cycles that delay permit approval. This coordinated list of requirements and decisions has been created for you to use as a reference for creating a more complete submittal package. The information in this report can also be utilized if you need to develop a street improvement plan (SIP) for submittal to SDOT for screening and acceptance (SDOT CAM 2206 and 2209).

Note: The applicant assumes full responsibility for determining all permit requirements and infrastructure improvements per applicable sections of the Seattle Municipal Code and the City of Seattle's Right-of-Way Improvement manual.

- If a SIP is required, SDOT must accept your SIP before DPD construction intake (see CAM 2209).
- If street improvements are required, you must obtain all necessary permits from SDOT.
- Street use permits are required for all work in the right-of-way (see SDOT CAM 2100).

Project Summary

AP/Project No.	6200717	Ground Disturbance	Y
Application Template	BLDG	Description of Work	Construct a light-rail station south headhouse.
Application Type	CONSTRUCTION AND DEVELOPMENT		
Category	COMMERCIAL		
DPD Review Type	FULL		
Address	1830 Broadway	Permit Remarks	
Location			
Zoning			
King County APN	6003001385	Applicant	TERRY BEALS 401 S JACKSON ST SEATTLE WA 98104 (206) 398-5237
Permit Status	Initial Information Collected		
Linked AP/Project Nos.	3009794		
Date PASV Completed	(Waived)	Applicant Email	terry.beals@soundtransit.org
SDOT Project No			

Seattle City Light Requirements

Contact: Bob Hansen, bob.hansen@seattle.gov

Street and Alley Requirements BROADWAY AVE

Underground electrical facilities/conductors require separation from other utilities. Review SCL Construction Guideline U2-10, Electrical Conduit and Facilities in the Public Rights of Way (<http://www.seattle.gov/Light/engstd/>). Before digging, contact the Utilities Underground Location Center ("one-call") at (800) 424-5555 two business days in advance to locate and mark underground utilities, per state law (RCW 19.122). Underground 26 KV primary high voltage in ROW parallel to west property line.

NAGLE PL

10-foot horizontal clearance required between power lines and permanent structures. Review DPD CAM 122, Electric Utility Clearance Requirements, and SCL Construction Guideline D2-3, Clearances from Structures and Ground (<http://www.seattle.gov/Light/engstd/>). Changes to SCL's system to meet clearances are done at the project's expense. Overhead 26 KV primary high voltage in ROW at pole north of E Howell St.

State law requires construction workers, their tools, machinery, equipment, and materials to maintain a 10-foot clearance from power lines. Review WAC 296-24-960. Transmission lines require greater clearance. To work near power lines, notify SCL well in advance to de-energize and ground the lines, or relocate the lines temporarily. This SCL work is done at the project's expense. Overhead 26 KV primary high voltage in ROW at pole north of E Howell St.

Underground electrical facilities/conductors require separation from other utilities. Review SCL Construction Guideline U2-10, Electrical Conduit and Facilities in the Public Rights of Way (<http://www.seattle.gov/Light/engstd/>). Before digging, contact the Utilities Underground Location Center ("one-call") at (800) 424-5555 two business days in advance to locate and mark underground utilities, per state law (RCW 19.122). Underground 26 KV primary high voltage in ROW between vault and pole north of E Howell St.

E DENNY WAY

10-foot horizontal clearance required between power lines and permanent structures. Review DPD CAM 122, Electric Utility Clearance Requirements, and SCL Construction Guideline D2-3, Clearances from Structures and Ground (<http://www.seattle.gov/Light/engstd/>). Changes to SCL's system to meet clearances are done at the project's expense. Overhead 26 KV primary high voltage in ROW parallel to north property line.

State law requires construction workers, their tools, machinery, equipment, and materials to maintain a 10-foot clearance from power lines. Review WAC 296-24-960. Transmission lines require greater clearance. To work near power lines, notify SCL well in advance to de-energize and ground the lines, or relocate the lines temporarily. This SCL work is done at the project's expense. Overhead 26 KV primary high voltage in ROW parallel to north property line.

DPD Drainage Requirements

Contact: Kevin Donnelly, (206) 684-5051, Kevin.Donnelly@seattle.gov

Existing Public Drainage Infrastructure

Sanitary sewer main location: Broadway

Sanitary sewer main size: 8-inches

Storm drainage main location: Denny Way

Storm drainage main size: 36-inches

Drainage

The drainage point of discharge (SMC 22.802.015.C.1) is located at: Public storm drain system. Denny Way

Permanent and Temporary Dewatering

Per SMC 21.16.110, the proposed project requires a separate side sewer permit for temporary dewatering based on the following: excavation greater than 12 feet deep.

The footing drain (if part of building plan) point of discharge (DPD DR 3-2006/SPU DR 02-06 VII.H) is located at the following: Public storm drain system. Denny Way

DPD Land Use Code Requirements

Contact: Samantha C Updegrave, (206) 684-3151, samantha.updegrave@seattle.gov

Street Requirements

Based on the scope of the proposed project, the following street improvements are required per Chapter 23.53 of the Seattle Municipal Code. Please review Right-of-Way Improvements Manual for design criteria (<http://www.seattle.gov/transportation/rowmanual/manual/>). Show required street improvements on your "enhanced site plan" at DPD permit application intake. If an SDOT Street Improvement Plan (SIP) is required, please list SDOT project number and SDOT contact name on the enhanced site plan. Street Improvement Plans must be accepted by SDOT prior to DPD permit application intake.

BROADWAY AVE

Based on the documents provided, no street improvements are required per SMC 23.53.015 and SMC 23.53.006

Street trees shall be provided in the planting strip according to Seattle Department of Transportation Tree Planting Standards. Contact SDOT Urban Forestry (for residential projects: (206) 684-TREE; for all others:

(206) 684-5693), to determine species of tree and standards of planting. Please add a note to the site plan showing size, location and species of tree to be planted.
<http://www.seattle.gov/transportation/treeplanting.htm>.

Landscaping is required to be installed in the planting strips in the right-of-way. Contact SDOT Urban Forestry to determine species of landscaping and standards of planting. For residential projects, call (206) 684-TREE; for all others, call (206) 684-5693). Please add a note to the site plan showing size, location and species of shrubs and groundcover to be planted.

Existing curbcuts that will no longer be used are required to be removed, and the curblin installed, per SDOT standards.

Any planting proposed within the ROW must be reviewed and approved by DPD and SDOT. See SDOT Street Use for early design guidance.

NAGLE PL

Based on the documents provided, no street improvements are required per SMC 23.53.015 and SMC 23.53.006

Existing curbcuts that will no longer be used are required to be removed, and the curblin installed, per SDOT standards.

Any planting proposed within the ROW must be reviewed and approved by DPD and SDOT. See SDOT Street Use for early design guidance.

Other requirements: Nagle Pl is a named alley. This is an SDOT designated Green Street.

E DENNY WAY

Based on the documents provided, no street improvements are required per SMC 23.53.015 and SMC 23.53.006

Street trees shall be provided in the planting strip according to Seattle Department of Transportation Tree Planting Standards. Contact SDOT Urban Forestry (for residential projects: (206) 684-TREE; for all others: (206) 684-5693), to determine species of tree and standards of planting. Please add a note to the site plan showing size, location and species of tree to be planted.
<http://www.seattle.gov/transportation/treeplanting.htm>.

Landscaping is required to be installed in the planting strips in the right-of-way. Contact SDOT Urban Forestry to determine species of landscaping and standards of planting. For residential projects, call (206) 684-TREE; for all others, call (206) 684-5693). Please add a note to the site plan showing size, location and species of shrubs and groundcover to be planted.

Any planting proposed within the ROW must be reviewed and approved by DPD and SDOT. See SDOT Street Use for early design guidance.

SDOT Requirements

Contact: Joel Prather, (206) 615-0772, joel.prather@seattle.gov

The City of Seattle's Right-of-Way Improvements Manual (ROWIM) and SDOT's Street & Sidewalk Pavement Opening and Restoration (PORR) Director's Rule 2004-02 may be accessed from SDOT's Street Use website at: http://www.seattle.gov/transportation/stuse_docs.htm. Whenever possible, specific reference notation for these two design documents is noted next to the design characteristics below. Be advised that these specific section and chapter references are provided as preliminary guidance only and are not comprehensive in scope.

Design Requirements BROADWAY AVE

New/Replacement Curb: See ROWIM sections 4.8.2 and 4.8.3 as well as the City of Seattle Standard Plan 422A. See ROWIM section 1.4 for a link to the City's Standard Plans and Specifications. dwy curb cut closures/restoration

New/replacement curb ramps: See ROWIM sections 4.8.2 and 4.8.3 as well as the City of Seattle Standard Plan 422A. See ROWIM section 1.4 for a link to the City's Standard Plans and Specifications.

Other requirements: Protect existing st trees.

NAGLE PL

New/replacement sidewalk: See PORR chapter 8.

New/replacement driveway

New/replacement curb ramps: See ROWIM sections 4.8.2 and 4.8.3 as well as the City of Seattle Standard Plan 422A. See ROWIM section 1.4 for a link to the City's Standard Plans and Specifications.

New/replacement planting strip: See PORR chapter 11 and ROWIM section 4.14.

E DENNY WAY

New/replacement sidewalk: See PORR chapter 8.

New/replacement curb ramps: See ROWIM sections 4.8.2 and 4.8.3 as well as the City of Seattle Standard Plan 422A. See ROWIM section 1.4 for a link to the City's Standard Plans and Specifications.

New/replacement planting strip: See PORR chapter 11 and ROWIM section 4.14.

Street drainage collection: A drainage review is required for any project which involves more than 750 sq ft of land disturbing activity in the public right-of-way. See ROWIM section 4.17.

Other requirements: Protect existing st trees.

SPU Requirements

Contact: Jennyfer Jacobsen, (206) 684-8766, JacobsJS@seattle.gov

Existing Public Infrastructure - Water

Water main location: Broadway

Water main size: 10-inch

Water main pipe material: CI

Closest fire hydrant location: Broadway & E Denny Way

Closest fire hydrant distance from property line: 135

Water Availability

The water infrastructure information shown is preliminary. Apply for a water availability review. Additional information and a review application can be found on our web site: <http://www.seattle.gov/util>

Other Requirements

Owners of residential property occupied by a tenant who will be displaced by housing demolition, substantial rehabilitation, change of use, or removal of use restrictions may need to obtain a Tenant Relocation License. Refer to DPD CAM 123, Seattle's Tenant Relocation Assistance Ordinance, for further information and instructions or call (206) 684-7889.

If your project involves additions or modification to or demolition of an existing building that contains four or more dwelling units or 4,000 square feet or more of non-residential area, and the building is a designated historic landmark or is 50 years old and meets the criteria set forth in SMC 25.12 for landmark designation, SEPA is required. Please contact the Department of Neighborhoods at (206) 684-0228 or www.seattle.gov/neighborhoods/preservation to determine if your building is a designated landmark or if a referral is necessary to determine if the building meets the criteria in SMC 25.12. Refer to CAM 208 for information regarding the application requirements for a SEPA review and CAM 3000 for information regarding landmarks and historic preservation.

Please Note: SDOT policy prohibits the removal of trees in the public right-of-way. You are required to design your project to meet SDOT's policy. Exceptions to this policy require review and approval by SDOT Urban Forestry. For residential projects, call (206) 684-TREE; for all others, call (206) 684-5693. Please contact SDOT Urban Forestry immediately if you are proposing to remove street trees. If an exception from street tree removal is not granted, the project will need to be redesigned to preserve street trees.

Applicant Next Steps

1. Please review the requirements set forth in this report.
2. Use Client Assistance Memos (CAMs), checklists and standards, and 5 Steps for a Successful DPD Application Submittal available on the DPD website for additional information.
3. Call or e-mail the appropriate contact if you have any outstanding questions.
4. If a SIP is required, you must submit it to SDOT to screen for acceptance a minimum of five days prior to DPD construction intake. DPD will not accept your application until this has been done.

5. Use the Seattle City Light website to obtain a range of information and services including the Requirements for Electric Service Connection (RESC), electric service applications and guidelines (<http://www.seattle.gov/light/newconstruction/>).
6. Contact an Electric Service Representative for your electrical service design and connection questions:
North of Denny Way (206) 615-0600
South of Denny Way (206) 386-4200
Large Commercial & Industrial (206) 233-7177
Service Applications (206) 233-APPS (2777)
7. If you have additional questions or need additional help, you may request a pre-submittal conference. For more information, call (206) 684-8850 or go to DPD's website for a copy of the pre-submittal conference application and instructions (http://www.seattle.gov/dpd/Publications/Forms/Building_Permit/default.asp).
8. When all issues have been addressed, you may schedule an intake appointment with DPD.

The requirements and determinations set forth in this document are based on the following:

Details provided by the applicant on the preliminary application form and site plan submitted to DPD. If project criteria are changed before your SDOT SIP is designed and/or before your DPD intake, the requirements in this report are subject to change.

Current municipal codes and ordinances, which may be subject to change. If there are code changes prior to your DPD intake, the project must meet the new code requirements unless it is vested through a published master use permit (MUP) decision.

The scope of your proposed project as described in the preliminary application form. Additional street improvement requirements may be triggered if a permit application for a development project on adjacent property is also undergoing review.
